Renovated detached house with sea views in the heart of the Marche region – Altidona (FM)

Imagine opening your windows in the morning and seeing the Marche hills gently sloping down to the Adriatic Sea. The scent of coffee in a medieval square just steps from your door, the sea just a few minutes' drive away, and a historic home... but with the technological comforts of a modern building.

In the historic center of Altidona, one of the most elegant and private villages on the Fermo coast, we offer for sale a delightful two-story townhouse of approximately 100 square meters, completely renovated with high-quality materials and state-of-the-art systems. A perfect solution for buyers seeking authenticity without sacrificing contemporary comforts.

The house

Direct access from the ground floor leads to a bright living room with an open-plan kitchen, featuring a large window that provides natural light throughout the day. Also on the same level are:

bathroom with washing machine and utility room

custom-made internal travertine staircase

The sleeping area is on the first floor:

two large double bedrooms each with private bathroom with window (also ideal for tourist rentals)  
wooden floors in the sleeping area for greater comfort and warmth  
The rooms are equipped with double windows, ensuring silence, thermal insulation and natural ventilation.

Modern comforts (very rare in a historic center)

The renovation was comprehensive, not cosmetic: the house is ready to move into immediately, with no work or surprises.  
Facilities and equipment:

High efficiency heat pump  
Underfloor heating  
Air conditioning in every room  
Independent digital thermostats  
Excellent thermal insulation  
Completely new systems  
It's a historic house that consumes like a modern apartment.
